

1. Put a slight layer on the fully prepared nail with on-phase builder gel. Use the Crystal Nails Builder gel I or Builder gel II.

2. Give the nail a basic-feeling with black 128, purple 134, silver 124 colored gels.

3. Make a color gradation to get the perfect effect.

4. Use the Xtreme Color gel to cover the nails during shape the C-curve.

5. After fixing give the final shape of the nail with Crystal Nails Xtreme File (blue 150/150)

6. Use black and white acrylic paints to paint irregular lines on the nail.

7. When the acrylic paints are completely dry use Crystal UV Filter to give back the shine of the colors.

8. Create a flower from Crystal Nails white and black acrylic powders. Use Master Powder Super White and Black (128) colored acrylic.

9. Put Swarovski crystal in the middle of the Flower as the last step.

10. Finish Picture
